#### **DETAILED ACTION**

### Election/Restrictions

1. Applicant's election without traverse of species B in Paper No. 6 is acknowledged.

Claims 4, 6-8, and 10-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

Election was made without traverse in Paper No. 6.

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3, 5, 6, 9, and 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- 2. Regarding claim 1, it is not clear which component of the exerciser is the "means for detecting the user's end of stride foot action." Examiner will assume that the spring dampers (14,15) are the means for detection to expedite the prosecution (see Figs. 1 & 2).
- Regarding claim 14, it is not clear which component of the exerciser is the "foot pedal braking means to brake forward motion of said foot pedal..." The specification discloses a method for stopping the foot pedals, not a separate component for stopping the forward motion of the pedals (see Page 16, lines 4-8).
- 4. Claims 2, 3, 5, 6, 9 and 14-16 are rejected for being dependent on a rejected base claim.

Application/Control Number: 09/674,996

Art Unit: 3764

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 2, 5, 6, 15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodgers, Jr. (5,989,163).

- 5. Regarding claim 1, Rodgers discloses an exerciser comprising foot pedals (104), support means (102) for guiding said foot pedals, means (204) for detecting the user's end of stride, and means (112) for returning said foot pedals to a forward position (see Figs. 1,2, 5 and 6 & Col. 4, line 63 Col. 5, line 8).
- 6. Regarding claim 2, Rodgers discloses an exerciser as described above (see discussion of claim 1). Rodgers further discloses that the detecting means detects the user's step-down on one of said foot pedals and return means returns the other foot pedal to a forward position (see Col. 4, line 63 Col. 5, line 8).
- 7. Regarding claim 5, Rodgers discloses an exerciser as described above (see discussion of claim 1). Rodgers further discloses an exerciser as substantially claimed (see Col. 4, line 63 Col. 5, line 8).
- 8. Regarding claim 6, Rodgers discloses an exerciser as described above (see discussion of claim 1). Rodgers further discloses speed regulating means (106) to control rearward motion of said foot pedals (see Fig. 5).

Application/Control Number: 09/674,996

Art Unit: 3764

9. Regarding claim 15, Rodgers discloses an exerciser as described above (see discussion of

claim 1). Rodgers further discloses cushioning means (204) as substantially described (see Fig.

5).

10. Regarding claim 16, Rodgers discloses an exerciser as described above (see discussion of

claim 1). Rodgers further discloses a pedal arresting means and energy conversion and storage

means (106) as substantially claimed (see Fig. 1).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Tam Nguyen whose telephone number is 703-305-0784. The

examiner can normally be reached on M-F 9-5.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is 703-308-0858.
